tools...

and a sense of the
Alchemical
Transformation Process

5

Nature is an inexhaustible storehouse of riches. The supply will never run out. Original substance is alive with creative energy and is constantly producing more forms.

The formless stuff is intelligent; it is material which thinks. It is alive and is always impelled toward more life.

The universe is a great living presence, always moving inherently toward more life and fuller functioning. Wallace Wattles

Stages of Alchemy

6

Step 1: Calcination

A burning off of pretenses and unworkable belief systems that hinder our progress.

7

Step 2: Dissolution

Works on the heart and id to release buried emotions that conceal or distort our true nature.

8

Step 3: Separation

During this breaking down of the personality into its basic components, the alchemist becomes aware of the opposites within and separates them from their contamination with ego complexes and unwanted unconscious elements.

9

Step 4

Soul + Spirit = Conjunction

Ego Can Stand Between The Union

10

Step 5: Fermentation

Associated with the **Dark Night of the Soul** psychologically.

"Here, we undergo a type of rebirth, resulting from the deep willingness to let go of all elements of [ourselves] that no longer serve our spiritual evolution. This marks the true beginning of inner initiation, of entry into a 'higher' life in which our best destiny has a chance to unfold." **Mistlberger**

11

Step 6: Distillation

When you become distilled, you are grounded in both the earthly and spiritual worlds simultaneously. You have matured, no longer expecting life to meet egoistic expectations, and have released belief in negative self-regard.
