"There is a thinking stuff from which all things are made, and which, in its original state, permeates, penetrates, and fills the interspaces of the universe.

A thought in this substance produces the thing that is imaged by the thought.

A person can form things in her* thought, and by impressing her* thought upon the formless substance, can cause the thing she* thinks about to be created. "

Wallace Wattles,
The Science of Getting Rich

16

"Thought is the impelling force which causes the creative power to act.

Thought is the only power which can produce tangible riches from the formless substance. The stuff from which all things are made is a substance which thinks. A thought of form in this substance produces the form.

Original substance moves according to its thoughts. Every form and process you see in nature is the visible expression of a thought in the original substance.

Wallace Wattles, The Science of Getting Rich
