

Aquarius:

"I am Aquarius, an air sign. I create the eleventh gate of awareness, through which I teach the importance of innovation. I have a cosmic perspective on life and often bring radical new ideas to humanity. I am

the detached free-spirited visionary exploring unconventional territory. I am interested in helping the world to become a better place through humanitarian ideals of love and truth. I am unique, inventive, progressive, and original."

The sun is in Aquarius generally from January 20 - February 18.

Positional Voice: "Can't you detach from that, take a bigger perspective, if you only thought about it this way (feelings why do they matter)." For Aquarius things may need to always be fresh and new, may roll their eyes if they feel we have done this before. They are very easily bored with the mundane.

Prosperity: Aquarius wants the funds to bring its innovative ideas into form. (example Tesla)
